

## MediStrip

### Fiber Stripper for the Medical Market (steam-sterilizable)

MediStrip was specially developed for use in the medical field. To distinguish strippers for different fiber diameters the MediStrip comes with different laser markings.

0.70/1.2 e. g. means:

- diameter of the closed blade 700  $\mu\text{m}$
- diameter of the front bore hole 1.2 mm

It is available for all common fiber types from 200  $\mu\text{m}$  to 1100  $\mu\text{m}$  and saves money because it can be used over and over again under sterile conditions.

Name	Suitable for	Part number
MediStrip 0.30/0.6	Fibers with outer diameter 230 – 280 $\mu\text{m}$	2007838
MediStrip 0.35/0.5	Fibers with outer diameter 280 – 330 $\mu\text{m}$	2007841
MediStrip 0.40/0.8	Fibers with outer diameter 330 – 380 $\mu\text{m}$	2007842
MediStrip 0.45/0.8	Fibers with outer diameter 380 – 430 $\mu\text{m}$	2007865
MediStrip 0.50/0.9	Fibers with outer diameter 430 – 480 $\mu\text{m}$	2007839
MediStrip 0.55/0.9	Fibers with outer diameter 480 – 530 $\mu\text{m}$	2007857
MediStrip 0.60/1.2	Fibers with outer diameter 530 – 580 $\mu\text{m}$	2007845
MediStrip 0.65/1.2	Fibers with outer diameter 580 – 630 $\mu\text{m}$	2007846
MediStrip 0.70/1.2	Fibers with outer diameter 630 – 680 $\mu\text{m}$	2007840
MediStrip 0.75/1.4	Fibers with outer diameter 680 – 730 $\mu\text{m}$	2007859
MediStrip 0.80/1.4	Fibers with outer diameter 730 – 780 $\mu\text{m}$	2007860
MediStrip 0.85/1.4	Fibers with outer diameter 780 – 830 $\mu\text{m}$	2007861
MediStrip 0.90/1.5	Fibers with outer diameter 830 – 880 $\mu\text{m}$	3003791
MediStrip 0.95/1.5	Fibers with outer diameter 880 – 930 $\mu\text{m}$	2007862
MediStrip 1.10/1.5	Fibers with outer diameter 1030 – 1080 $\mu\text{m}$	2007864
